

## FastTrack Bundles for IBM Lotus Quickr

Gemini Systems is offering a special *FastTrack* package to jump start your enterprise collaboration and empower your innovation with Lotus Quickr.

Lotus Quickr 8 is enterprise team collaboration software which provides a secure environment to share content between project teams that span geographies, time zones and organizational boundaries. Quickr Content Libraries help your teams effectively and consistently organize project information. Quickr Team Places provide out-of-the-box tools such as team calendars, discussion forums, blogs and wikis for enhanced project communications among team members which can be easily created by end users without the need for IT support. Quickr Connectors allow integration of content with popular desktop applications such as Microsoft Office, Lotus Notes and Lotus Sametime. Quickr Templates help provide users immediate value by supporting many common business processes out-of-the-box.

For a limited time, Gemini Systems will help you reap the benefits of the newest version of Lotus Quickr at a minimal cost. This discounted promotion combines options for pre-configured hardware, IBM Lotus Quickr 8 software licenses and Gemini Systems' unmatched systems integration and consulting expertise, thus future-proofing your investment in Lotus technologies.
