

## Gemini Systems FastTrack Bundles for IBM WebSphere MQ and MQ Extended Security Edition

Gemini Systems is offering a special *FastTrack* package to help you start saving time and money with IBM WebSphere MQ and the more secure IBM WebSphere MQ Extended Security Edition (ESE), one of the most powerful family of solutions for securely and reliably connecting applications.

IBM WebSphere MQ ESE provides a comprehensive integration and security management solution for customers building mission critical applications by enabling them to implement a secure messaging infrastructure as a part of a stringent information security policy complying with industry best practices. MQ ESE combines IBM WebSphere MQ with IBM Tivoli Access Manager for Business Integration to deliver a more secure environment for exchanging information across different platforms.

For a limited time, Gemini Systems will help you leverage the power of the MQ family of products with a minimal investment. This promotion combines discounted software licenses and hardware from IBM with Gemini Systems' unmatched expertise to enhance integration internally or with your partners and customers.
